

CREATION CARE

*The earth is the Lord's, and everything in it.
The world and all its people belong to him.
- Psalm 24:1 -*

- AWARENESS -

Sometimes, the world doesn't do the best job in taking care of the Earth God gave us. The Bible says that the Earth is the Lord's and that we are supposed to take care of it. That's called stewardship. It is a privilege and our responsibility to take care of the beautiful creation God has given us.

- ACTION -

We can be mindful of how we treat our resources and do our best not to pollute our planet. That can include properly recycling and disposing of trash, planting new trees, bringing awareness to endangered species, or raising money to help preserve nature.

- SHARE -

Look for opportunities to talk about creation care with your friends. If you see someone littering, help them understand that God wants us to take care of our environment. Showing Christ's love to our friends looks like showing love to all God's creation.

- QUESTION -

What is a practical way you and your family can help to take care of God's creation this week? Who is one person you can speak with about creation care?
